### *Interested in learning about supply & demand & how manufacturing companies plan & move their products to their customers?*

This is an exciting and varied apprenticeship within our fast paced Automotive Manufacturing sector where you will learn all aspects of our Logistics department right from the moment we receive orders from our customers through to the time we ship their goods .

During your apprenticeship you will be involved in the planning of shipments, you will gain a good understanding of production volumes and production control.

In addition you will support with new projects as well as learning basic logistic skills such as picking & labelling of components ready for shipment. Some of your time will be spent on the shop-floor as well as undertaking administrative duties.

G-TEKT Europe Manufacturing Ltd is a world class manufacturer of high quality metal automotive pressings and sub-assemblies.

The qualification framework is as follows:

- Level 3 in Logistic Operations
- Functional Skills Level 2, English, Maths and ICT

Our 3 year apprenticeship combines on-the-job training and academic studies at one of our local colleges.

**Places on our apprenticeships are limited so we would urge you to send a CV and covering letter to us detailing why you are interested in building a career in logistics & planning.**

**To become a G-TEKT apprentice you must be aged 16-24 and have 5 GCSE's at Grade C or above including Maths, English & ICT**
