- Create and maintain technical documentation relating to the project under development.
- Conduct peer review of code and testing.
- Knowledge of the manufacturing and logistics domain (desirable).
- Enthusiastic and highly self-motivated.
- Able to lead projects from inception.
- The ability to multi-task and see the bigger picture.

Skills & Abilities

- In-depth knowledge of OpenEdge 10.2 or higher.
- Techno-functional knowledge of QAD MFG/PRO 2010 SE.
- Knowledge of Linux operating system (Redhat).
- Knowledge of WebSpeed would be an advantage.
- Knowledge of HTML and JavaScript would be an advantage.
- Knowledge of EDI would be an advantage.

Person profile

- Systematic and analytical approach to problem solving.
- Excellent communication skills.
- Attitudes and behaviours consistent with the company values.
- A strong desire and aptitude to continually develop product and domain knowledge.
- Knowledge of the manufacturing and logistics domain (desirable).
- Enthusiastic and highly self-motivated.
- Able to lead projects from inception.
- The ability to multi-task and see the bigger picture.
