G-TEM

Award-winning, world-class manufacturer of automotive body in white components

P4 Press Technician

Due to the recent expansion and investment in the latest press technology at our new Gloucester based facility, an exciting new position has arisen for a Press Technician.

The role will initially be focused on machine commissioning and set-up utilising the latest technologies, with training delivered onsite by the press equipment manufacturer & experienced G-TEM staff.

Role Responsibilities
(Following full training)

- Machine set-up and parameter adjustment to achieve best class quality
- Support activities to achieve overall equipment effectiveness to best practice level
- Ensure correct escalation of concerns to ensure deadlines are met.
- Ensure adherence to H&S policy

Qualifications and Experience

Previous experience of press operation is desirable

Shifts

- 37.5 hours per week
- Mon - Thu 8:00 – 16:30, Fri 8:00 – 15:30
